"A. S. Roe, author of 'A Long Look Ahead' and 'The Star and the Cloud,' is a fiction writer whose works may be safely commended. In the charm of simplicity and naturalness, and in power, he ranks far, far above the common rabbie of novel writers; and, if we may make such a conclusion from the two works of his which we have read, he has not published one the which dying he would wish to blot." [N. Y. Independent. "It is not impossible that this auth-"s rather peculian novel may yet become a school by themselves, which will find imitators. They are unique, full of human nature, and, what is remarkable in a writer, each one seems to be an improvement upon the previous one." [Boston Traveler. "Mr. Roe evidently knows how to touch the heartstrings; indeed, he sweeps them with a master hand. At one time we find it impossible to restrain the gusding tear, at another every isible nerve is in full exercise." [N. Y. Christian Intelligencer.
